

Symyx ISENTRIS Sourcing Package

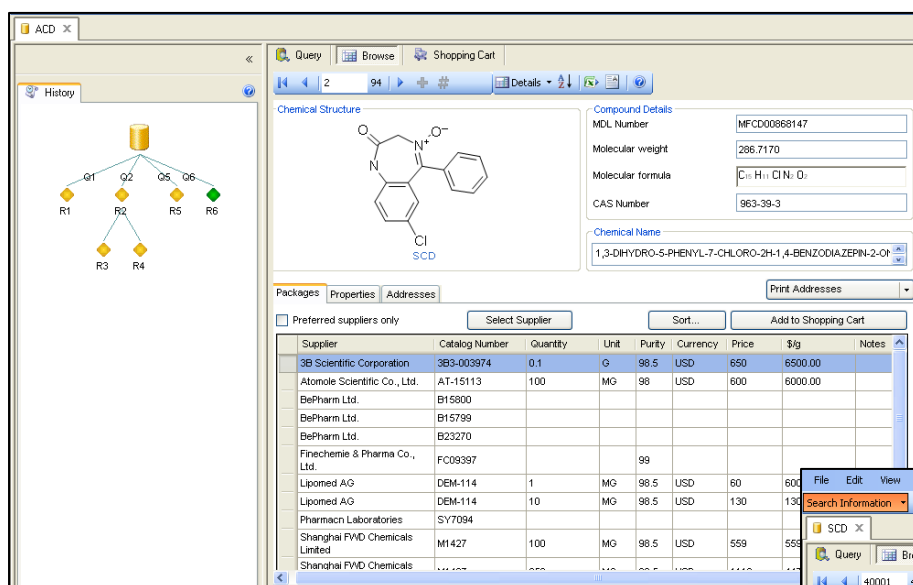

Easy, cost-effective compound acquisition

Make informed purchasing decisions and cut costs by accessing industry-standard, structure-searchable Symyx databases of supplier information using ISENTRIS to locate, evaluate, and purchase compounds.

ISENTRIS provides rich functionality to access the following Sourcing databases:

Symyx Available Chemicals Directory (ACD) provides complete chemical supplier catalogs from over 840 suppliers consolidated into a single, easy-to-access, structure-searchable database providing product purities, forms, grades, available quantities, prices, and ordering information for over 991,000 unique compounds representing approximately 3 million products and 5 million packages available for purchase, in bulk and research quantities.

Symyx Screening Compounds Directory (SCD) complements Symyx ACD by consolidating HTS supplier offerings into an easy-to-access, structure-searchable database providing comprehensive coverage of over 5.5 million unique “drug-like” chemicals in over 12 million individual products with prices and supplier ordering information.

The screenshot shows the Symyx ACD interface. On the left is a tree view with nodes Q1-Q6 and R1-R6. The main window displays a chemical structure of a benzodiazepine derivative. To the right of the structure is a 'Compound Details' panel with the following information:

- MDL Number: MFC00088147
- Molecular weight: 286.7170
- Molecular formula: C₁₇H₁₄ClN₂O
- CAS Number: 963-39-3
- Chemical Name: 1,3-DIHYDRO-5-PHENYL-7-CHLORO-2H-1,4-BENZODIAZEPIN-2-ONE

Below the structure is a table of suppliers:

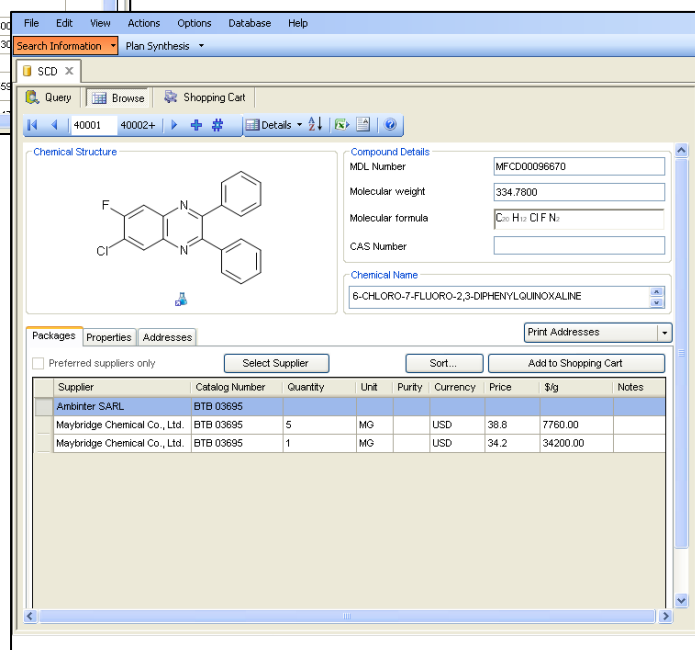

Supplier	Catalog Number	Quantity	Unit	Purity	Currency	Price	\$/g	Notes
3B Scientific Corporation	3B3-003974	0.1	G	98.5	USD	650	6500.00	
Atomole Scientific Co., Ltd.	A1-15113	100	MG	98	USD	600	6000.00	
BePharm Ltd.	B15900							
BePharm Ltd.	B15799							
BePharm Ltd.	B23270							
Finechemie & Pharma Co., Ltd.	FC09397			99				
Lipomed AG	DEM-114	1	MG	98.5	USD	60	600.00	
Lipomed AG	DEM-114	10	MG	98.5	USD	130	1300.00	
Pharmaco Laboratories	SV7094							
Shanghai FMD Chemicals Limited	M1427	100	MG	98.5	USD	559	5590.00	
Shanghai FMD Chemicals								

With Symyx ACD, scientists can:

- Identify and locate commercial sources of chemicals with pricing, package size, quality, and supplier information
- Make side-by-side comparisons of purity, quantity, and price
- Save valuable time by accessing information from a single source

With Symyx SCD, scientists can:

- Identify and locate diverse, “drug-like” candidates for high-throughput screening
- Save valuable time by accessing information from a single source
- Automatically compile lists of candidate compounds for ordering

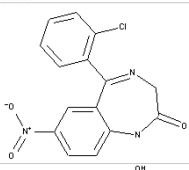

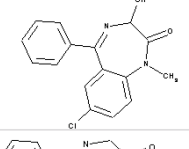

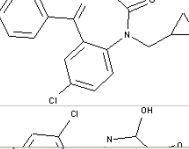

The screenshot shows the Symyx SCD interface. On the left is a tree view with nodes Q1-Q6 and R1-R6. The main window displays a chemical structure of a quinoline derivative. To the right of the structure is a 'Compound Details' panel with the following information:

- MDL Number: MFC000096670
- Molecular weight: 334.7800
- Molecular formula: C₁₇H₁₂ClFN₂
- CAS Number:
- Chemical Name: 6-CHLORO-7-FLUORO-2,3-DIPHENYLQUINOLINE

Below the structure is a table of suppliers:

Supplier	Catalog Number	Quantity	Unit	Purity	Currency	Price	\$/g	Notes
Ambinter SARL	BTB 03695							
Maybridge Chemical Co., Ltd.	BTB 03695	5	MG		USD	38.8	7760.00	
Maybridge Chemical Co., Ltd.	BTB 03695	1	MG		USD	34.2	34200.00	

Microsoft Excel - Book1
